EXPERIENCE

May 2016 – August 2016

Co-op Backend Programmer, *Hothead Games*
Worked extensively with:
- **Perforce** – All work done was version controlled through perforce
- **Graphite** – Managed server that processed thousands or metrics an hour
- **Grafana** – Developed dashboards used by many teams in the company
- **InfluxDB** – Developed systems to facilitate moving from Graphite to InfluxDB

Sep. 2013 – Present

Scouter, *Scouts Canada*
- Responsible for developing and carrying out an engaging, educational, and fun program for a group of 11 to 14 year old's each week.
- Take youth on one weekend camp every month, where we practice the skills learned in weekly meetings.
- Collaborate with my fellow scouters and the youth to mold the program into the best possible experience for the youth
